

EBB & FLOW

Room for personality

Uva multi pendants in Golden smoke & mini crystal check (L) + Ivy green (M)

BOLD & FRESH

With positivity, courage and an appetite for life, EBB & FLOW introduces a new range of fabric lampshades for Spring 2022. A collection both bold and fresh for creating inspiring spaces to thrive in. Colours and patterns with real zest and freshness make up the new collection of fabric lampshades. A variety of fabrics that elevate and inspire, curated by EBB & FLOW designer, Susanne Nielsen.

The collection celebrates exclusive names from the world of fabrics such as Christian Lacroix, Designers Guild, and Scion. Synergising extravagance, playfulness, and luxury, the selection adds three unique qualities, making them the perfect partners for the EBB & FLOW lamp collection.

We make room for personality, and this season, we present exquisite silks in striking check patterns, extravagant feathers as well as cheerful and retro fabric lampshades. All to match our handmade lamp bases or to hang as pendant lamps.

Almost like a ballgown, the check patterns in luxurious silk are wonderfully tactile and irresistible. The straight lines lend themselves perfectly for a lampshade and will liven up the space. Choose between striking Fushia, Cobalt, Azure, and deep Ochre.

The exuberant feather fabrics from Christian Lacroix add a unique and baroque style to the collection. A truly bold and artistic pattern with incredible details and nuances.

The retro feel of the Poppy Pop design combined with Ferns and adventurous Jackfruit and Beanstalk are a playful addition to the range. Young and honest somehow, and the cotton and linen choice of fabric quality reflects this perfectly.

Bold and fresh. With an appetite for luxury and playfulness.

About EBB & FLOW

We are a brand of personality. A brand of liberation and meaningful interior design. EBB & FLOW is not driven by fashion or trends. We design decorative lighting that adds character and personality to any space. Design that lasts for years. We specialise in decorative and innovative lighting and have recently expanded our collection with exclusive crystal bowls. A modern collectable.

All products are designed by our Founder and Designer, Susanne Nielsen. Inspired by perfume bottles, jewellery, and British antique markets, all products are designed focusing on organic shapes, proper raw materials, and an eye for detail.

The collection holds everything from simplistic and elegant designs to sculptural statements. Choose between table/floor lamps, wall lamps, pendants, surface lamps, and fabric lampshades produced by hand in glass, crystal, brass, and luxurious fabrics.

Handmade production is at the heart of EBB & FLOW. All products are produced by hand in Europe using traditional craft methods. We celebrate uniqueness, impressive craftsmanship, and the individual story of each product.

With a wide collection of lighting in different colours, shapes, and sizes, we encourage you to let your personality shine.

Handmade

Designed in Denmark and produced in Europe, all EBB & FLOW products are handmade. Glass, crystal, brass, and textile are designed, shaped, coloured, and cut by hand to be assembled into the finished EBB & FLOW product. Impressive craftsmanship ensuring high quality and exclusive products. We celebrate the uniqueness and the personality of handmade production.

Flawless is for diamonds, to the rest of us an illusion

Just like a flower or a loved one is beautiful because of their so-called flaws, not despite them, we too celebrate the uniqueness in the glass and crystal products we design and produce. We strive to make it the best version of itself, give it beautiful curves and lines, using the best craftspeople in Europe. Instead of lamenting the fact that our lamps and vessels will never be flawless, we celebrate them for their personality and lack of uniformness.

The art of glass blowing

It takes four to five craftsmen or women to blow and shape an EBB & FLOW lampshade. Before reaching the production stage, there is a long process of drawings, mould-making, and sampling, until finally the finished product is approved and ready for production. EBB & FLOW glass is blown as clear glass, and the next stages of production involve polishing and hole-drilling. Eventually, the shade is hand-coloured, and the colour is burnt onto the glass.

A centuries long history of crystal

All EBB & FLOW crystal pieces are produced in Czech Republic. A place where crystal has a centuries long history carried by craftspeople. Initially, lead was used to add clarity and finesse to crystal, making it soft and easier to cut. For many years, this is how crystal was made. Today, crystal is produced without lead, yet with the same properties as before, the weight and clarity unchanged. Every crystal product is cut by hand, elevating the uniqueness and impressive craftsmanship from start to finish.

Room for personality

Futura lamp base in Forest green (XL) + Ferns Juniper fabric lampshade (F)

Uva

Inspired by the shape of a grape and vintage perfume bottles, the award-winning Uva pendant is the perfect lamp for creating a modern chandelier. All technical features are hidden in the shiny silver or gold brass ball, a design detail creating a simple and elegant pendant lamp.

Available in multiple different glass colours and crystal cuts. Mix & match sizes and create a cluster of up to 5 or 10 Uva pendants to hang from a ceiling box.

For clusters, use only article numbers ending with "M"

Award

Although small in size, Uva makes a big statement.

The Uva pendant has received a Special Mention from German Design Award 2022.

Uva lamp

Rowan crystal bowl & lamp

Meet Rowan Bowl. A crystal bowl with decorative facet cuts, made by hand.

The decoration possibilities are endless. Use it as a vase for a big bouquet of wild flowers or fill the bowl with water and leave flower heads to float on the surface. The perfect decoration for social occasions. Imagine it in your kitchen displaying your favourite colourful fruits. The most exclusive fruit bowl you have ever seen. Really, the bowl is highly decorative on its own, as the solid crystal speaks for itself.

The Rowan Bowl takes its inspiration from the Rowan pendant lamp design. A classic shape with futuristic facet cut designs that simply had to be translated into a timeless bowl. It is an exclusive design that dresses up your home instantly.

Rowan

Classic & timeless

"To me, Rowan is like an old friend. You don't need to explain so much, you just pick up where you left last time you met."

"Being the first EBB & FLOW design, Rowan takes pride of place above my own dining table"

Susanne Nielsen,
Designer

Extensive choice of
colours and sizes

Rowan pendants in Chestnut brown (XL)

Rowan lamp

Design - Susanne Nielsen / 2012

Model	Rowan lamp
Product	Rowan pendant and wall lamp
Materials	Mouth-blown glass shade, metal fitting and ceiling rose
Wire, pendant	Woven textile cord 3x0,75mm ² . Cord length 200cm
Wire, wall lamp	Round plastic cord 3x0,75mm ² . (internal wire only)
Class	1 IP20 Voltage 220V-240V - 50Hz CE
Bulb	E14 / E27 max 25W LED - CFL - I

Type Size	Wall Small	Pendant Small	Pendant Medium	Pendant Large	Pendant XL

Products & specifications

Symbols

Light sources

Technical definitions

CRI Defined as the Colour Rendering Index, CRI defines the ability of a light source to reveal the colour of an object, ie a lamp.
Kelvin Kelvin is the standard unit of the thermodynamic temperature. It measures the warmth of light.
Lumen Lumen is a measure of the amount of light emitted by a lightsource.

Handcraft

The lamp shade is hand-crafted using mouth-blown glass or crystal. Air bubbles and other imperfections may occur. These are not considered defects, they are unique characteristics of the glass.

Any colour sample of glass, crystal, textile, and other materials used in EBB & FLOW ApS portfolio can only be considered a guide.

Cleaning & Care

The glass should be handled and cleaned using only a mild non-abrasive soap, and must be dried using a clean and soft cloth.

Technical information

Lamps must only be fitted by a qualified electrician.

The white connection box located inside the ceiling rose on some models and wall cups must be opened in order to fit and connect the lamp.

Ceiling hook or similar fitting attachment, NOT included.
